browse_cloud *Open learning materials in Posit Cloud*

Description

`browse_cloud()` will open an Posit Cloud version of a given learning module in your browser. The cloud version will have the packages and materials pre-installed.

Usage

```
browse_cloud(module, open = interactive())
```

Arguments

`module`	The name of the module
`open`	Logical. Open the URL in the browser? Default is `TRUE`. If `FALSE`, `browse_cloud()` just provides the URL for you to open yourself.

use_module *Install learning materials*

Description

`use_module()` will install the materials for a given learning module. Then, it will open a new RStudio Project containing the files you'll need for that module.

Usage

```
use_module(module, destdir = NULL)
```

Arguments

`module`	The name of the module
`destdir`	The path on your computer where you would like the learning materials installed. If `NULL`, defaults to your Desktop or some other conspicuous place.
